

Q: Why QMI Security Solutions?

- Faster:** Typically ship in 10 days or less
- Better:** Lifecycle testing far beyond industry standards
- Stronger:** Great for security, or obstruction free hurricane use
- Smaller:** Industry's smallest box housing
- Fewer:** Service calls. Every shutter is assembled, tested, limits set; and expertly packaged.

Q: What Makes it Qompact?

A: Elegant Design - 12 Unique slat shapes makeup a Qompact shutter up to 16' tall.

A: Engineered Slat Nesting - Each subsequent slat grouping has a specific radius design to accommodate the ever increasing roll diameter.

	Clear Spans	
	AL7**	Qompact
40psf	223"	236"
60psf	182"	212"
100psf	102"	166"
160psf	—	96"

Eliminates most storm bars.

Florida Building Code (FBC) compliant
 International Building Code (IBC) compliant
 Texas Department of Insurance (TDI) approved
 Miami-Dade HVHZ approved

Manual and Motorized Shutter Controls

Our trained specialists walk you through the step-by-step selection process for designing the correct rolling shutter for your home.

- For shutters up to *150 sq. ft.
- Outside operation or through window
- Counter balance springs make operations effortless

Motor Operator line voltage motor

- Switch or remote controls
- Advanced electrical control systems available
- Manual override available as option

EZ Drive low voltage motor

- One smart drive controller operates multiple shutters
- Rechargeable battery power-no worries about power failure

Pole crank manual

- For shutters approx *80 sq. ft.
- Inside or outside operation up to 100 lbs.
- Removable pole operator available.

Manual strap

- Switch or remote controls
- Up to 25 lbs (3 to1 coiler to 55 lbs)

*Weights vary by profile selected: 1.0 to 1.5 lbs./sq. ft.

Hurricane Approved Profiles

Consult your product specialist to determine if our patented end retention system is your best solution.

AL7-E** Extruded aluminum single wall

- Rolls up in tight coil to reduce box size

Box Sizes					
	6"	7"	8"	10"	12"
Motor	57"	92"	129"	192"	271"
Spring	54"	89"	126"	162"	—

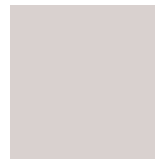

Compact

- Extruded aluminum single wall slats nest into industry's smallest coil

Box Sizes				
	6"	6.5"	7"	8"
Motor & Spring	83"	122"	156"	210"
