

Patio & Lanai Solutions

- Ideal for curved areas and wide spans needing storm protection such as lanais and balconies

Roll-a-way Accordion Shutters' five point locking system can be operated either from the interior or exterior to provide protection from the sun, storms or forceable entry.

The accordion shutters' ability to cover wide spans, such as lanais and balconies, as well as ease of use, make Roll-a-way Accordion Shutters one of our most popular storm protection solutions.

Entry Door Solutions

- A turn the key solution for protecting entry doors from hurricanes or potential intruders

Roll-a-way Accordion Shutters protect entry doors from wind and weather. Adjustable bottom shutter tracks are typically used. These tracks may be removed anytime if desired and replaced to operate the shutters.

- Ready and easy deployment for extreme storms or daily security
- Unlimited width plus a maximum height of 14'-10" make accordion shutters one of our most popular protection solutions, fitting most openings

Easy deployment allows your accordion shutter to provide daily privacy and sun shading.

- No ladders
- No tools
- No motors
- No lifting
- No storage
- No painting
